lestroy monopoly—correct avarice—and reduce prices.

We have in this city about thirty coal yards. The stock on hand is probably 10,000 tons less than it was at this time last year. The price in Philadelphia is now \$6,25 to 6.50, on time \$6, cash. The prices at the rivers and landings near the mines are 2.75 to \$3. Prices in the mines 50 to 70 cents. In this city prices are 8.50 to 9.50. These prices have been created by the bad policy pursued during the last two years—the unwise tax of Congress—the conduct of the miners—and the facilities for monopoly furnished by the banks. And even at these high

We merely present these brief views today, by way of a be-ginning to our Coal Market Report. We shall institute an inquiry into the exact condition of the trade—those leading men who have given it its present direction—the quantity of coalon hand, at the mines and in the ports-and the general aspect of the future.

account of sales.

CATTLE MARKETS,-In the Brighton (Boston) Cattle Market of Monday last, the first quality of beef was sold at from \$6.50 to \$7.25 per cwt., while in our Cattle Market on the same day it brought from \$8 to \$10.75. Can it be doubted, in the face of facese facts, that speculators are now as active as ever at the Buil's Head, in keeping up the price of meat. It is, we are assured, a common practice for these men to visit Boston, and other places where cattle are at a reasonable rate, and drive them to our market, where they dispose of them at an exorbitant price. This is one of the evils consequent on flooding sions obtained facilities to carry on their nefarious practices. The only cure for this is a return to specie payments, which will effectually prostrate the establishments that aided and as-

Jy31-21 THO'S BELL, Auctioneer.

To there is so much boldness and assurance in the assumptions of Mr. H. Gregory derogatory to the merits of his contemporaries in the same busines—(we allude to his publication to the Express of the 18th instant, and again repeated this morning)—that we send you a statement of facts that will show upon what his pretensions are founded.

The enclosed was intended to have been sent to the editors of the Express for publication—but as it is not likely they would publish it, except for some one who had an interest in its developement, it is sent to you—to be used by yourselves or any others of the trade, who have been so sadly vilified in the paper of this morning, as they or you may think proper. T. & J.

Mr. Editor.—4s your paper of the 28th inst. we notice a communication, signed H. Gregory, on the subject of the far ismed Vanilla-Greum Candy, in which he chaims to bethe "sole interested in the manufacture of the original receipe. Being strong friends of truth, as well as justice, and in no wise interested in the manufacture of the article, or even a lower of its "sweet?"—we take the liberty to address you a few facts in regard to its introduction into this city, which may serve to enlighten the public mind, as to the right this gentleman has to assume the title of inventor and proprietor.

About three months ago, a lady from Philadelphia called at H. Gregory's Candy store, 131 William street, and inquired for Vanilla Cream Candy; the answer was, we have no such article—what is it? The lady replied it was very common in Philadelphia, where alone she had seen it. At the anxious desire of Mr. G. she fully explained the character of the candy, advising him by all means to make it. Mr. G. with great avidity commenced the manufacture, and the sale of the article has become so popular that we fear Mr. G. is the full tide of prosperity, has forgotten the source from whence he derived all his knowledge on this subject. Had Mr. G. confined himself strictly: to the truth, we should never have interfer d in the matter—but

and ann, we wish him every success.
